CITY SCHOOL BOARD,-The regular monthly meeting was held last night, present : S. Ferguson Beach, esq., chairman pro tem., and Masses, Gregory, Herbert, Marbury, Snowden, Washington, Whittington and Whittlesey, trus-tees, and Richard L. Carne, Saperintendent. Thomas Leadbeater, e.g., elected by the City Council a trustee of Public Schools, for the un-

took and subscribed the oath of office, and took his seat as a member of the Board. The minutes of the last meeting having been

expired term of the Hop. Charles E. Stuart,

read and adopted, Mr. Snowden, from the committee on finance and ace a 14, reported as correct the bills of Joseph l'adeett, for clearing out chimney at Peabody building, and Peake & Nalls, paint, glass, &c., \$20.40, which were ordered to be paid. Also, two gas bills, which were, en his motion, laid on the table, with a view to requesting the free use of gas.

On motion of the Superintendent the clerk was directed to issue a warrant for the full amount of her salary to Miss Price, notwithstanding her absence in consequence of the dying condition of her father.

Resolved. That the law requireg vaccination as a prerequisite for entering school be suspended during the pleasure of the Board.

The Superintendent stated that Snowd n School No. 2, being overcrowded, he had directed the teacher to divide it into two sections and keep balf day schools for each, usual the is and could be consulted. The upper school was small, but had four classes, and the teacher could not give them proper attention if required to reach an additional grade, so either another teacher must be added, or the half day school continued. The Board decided to continue the half day schools.

A letter of Wm. We is a baker, agent of a

company in Richmond, effering to paint the roof of the Peabody building and insure the toppage of all leaks for \$11, was read and relarred to the equation on cased bours and

Mr. Snowder presented the refrentien of Major Richard H. Henderson, as teacher of Washington School No. 2, which was, on me-tion of Mr. Whittlessy, accepted. Mr. Whittlesey then offered the following

resolutions, viz: Resolved. That the fif centh by-lew be amended by striking out \$550 and itserting

Resolved. That the efficient Vice Principal

of Washington School he re catablished. Mr. Losdbeater said that, being a new mem-ber, he did not understand the scatter exactly and would like as explanation.

At the request of a trustee, Superintendent Cathe explained that the Vice Prioripalships were originally created on the consolidation (f the schools, but whilst they were still kept in eparate buildings and were then absolutely eccessity; on the retirement of the incombents. they were, on his motion, abelished, in order to save expense. The object in re-establishing one now, he understood, was a desire to secure the services of a gentleman of great experience and high qualifications, who would not accept the place at a less salary than \$700.

The scenad resolution was then adopted. The first resolution then came up for considcratien, when Mr. S. F. Beach expressed his apposition to it. The gootleman spoken of neight be very well worth \$700 or more, but the question was whether the service required of the teacher of Washington School was worth that. He enquired of the Superintendent what was taught in that school. Superintendent Usine gave the course of study. Mr. Beach said that a competent teacher for those branches could be had for \$500, and he was unwilling to

Dr. Gregory enquired where the money to hay the additional salary was to come from. He asked the Superintendent how much the estimates for the year would be exceeded if the \$700 should be voted.

Superintendent Carne replied that his estimates made for the Committee on Finance and Accurate, were for an inexperienced teacher. and would, of course, be exceeded \$450. How he school funds would stand with that addition, ie was unable to say without a fuller examination of the accounts than he could make at one; The resolution was then adopted.

Mr. Snowden then offered the resignation of John S. Beach, erg., as a trustee from Hallowell District, and, on his motion the resignation was accepted, and the clerk was directed to netify the City Council of the vacancy, as well as of those caused by the expiration of his own term and those of Messrs. Marbury and Whittlesey, on the 1st of November

The Board then preceded to elect a vice

titional for Washington School. Mr. Sabwden nominated John S. Berch, Too elerk read the application of Frank A. Byerly, tegether with a strong recommendation from the School Board of Jefferson District, Alexandria county, under which he has taught for

the last four years. Supt, Carse said that as the application did debt, the sum of \$420,900, not come through him, he could not withdraw it, but from a conversation with Mr. Byerly, he was sure that gentleman did not intend to eppose Mr. Beech, who was a teacher of much greater experience. This application was made for the lower position, in case the Board should not have seen fit to re-establish the viewprin

eipalship.

Mr. Beach was then unmimously cheech. and at 8:30 the Board adjourned.

METHODIST PROTESTANT REVIVAL -The revival services at the M. P. Church continue with increasing interest. Notwithstanding the inclemency of the weather there was a large Congregation present last night. An encourage ing feature of the meeting is the great interest takes in it by young men, the congregation being largely composed of that class of nersons.

THE WASHINGTON ARSENAL-Gen. Sher has recommended to the Sceretsty of War that the Washington Assenal be abandoned. He states that the Arread is entirely uselas to the service.

FIRE LAST NIGHT.—This morning, about half past one c'clock, the frame fish house of Wes. H. Smith & Co., on Union street, Fishtows, was discovered to be on fice. The firemen repaired at once to the spot, and confined the flames to the fish house and the building immediately on the east of and aidjoining it, occasional by Cost. Eli Patter on a resignment, and cupied by Capt. Eli Pettry as a restaurant, and the small frame boo hon the north, owned by Richard Phillips. The north side of the fish house of the late J. T. Armstrong was also partially burned. The fire was the work of an incendiary; no one has been in either building for some time past. In Smith & Co.'s building, besides some barrels of fish, belonging to the firm and Mr. J. E. McGraw, there was a considerable quantity of guano belonging to Mr. Themas Persy. Messis. Smith & Co. were \$400, and Mr. Perry in the National Company of Baltimore for \$600 and the City Fire of the same city for \$400, all the companies being represented by Messrs. Wist & Co. Capt. Petty, who holds the building as trustee for Misses L. M. and Nettie L. Pettey, was insured in the Virginia Home Co. of Richmond, S. H. Janney & Son, agents, for \$600. Messrs. Armstrong and Phillips were not insured.

BURNING OF "PANORAMA."—The burning of Pancrama, the residence of Col. N.B. Mesde, near Culpeper Courthouse, has already been mentioned in the Gazette. The Culpeper Times says: "Every effert was made to save as much of the property inside the house as possible, but as the building was constructed entirely of wood Service of Song and prayer meeting in the 21 Pre-byterian Church, at 4 p. m. Jail at 21 p. m. Alms House at 22 p. m. Canal at 22 ing were saved. That which did burn with the front seat, solembly: "A sot and beggar." The with difficulty same of the furniture and cloth-ing were saved. That which did hurn with the house, was nearly all new and elegantly made. and consequently cannot be replaced without considerable expess. The amount of damages is estimated at \$6,000, about one half of which is relieved by insurance. This house was built during the past summer by Col. Meade at much expense and trouble, he being present and personally superintending its cors ruction. It was one of the most handsome and convenient residences in the county, and its situation commands one of the grandest landscape views in the State, better is name 'Panorama,' Its destruction was regretted by oversbody not only es a severe less to our town-man. but as one of the croamouts of the county. We are pleased to learn, however, there are prospects of its being robuilt next summer."

The street corners and the shady sides of the houses were occupied by ittle knots of people, all gazing intent'y upwards. Some saw it and some did not, while roopy refused to look up at all, proclaiming the whole thing a sell. The star remained a view of the sharp sighted until about eleven 'cleek. The people are certainly to be coneraturated that there has been some small astronomical display, after the many recent dissposintments in that line.
